REPUBLICANISM ON ITS TRIAL.

Andrew Johnson, so the telegraph informs us, has been impeached by his country, is arraigned before the highest tribunal of the United States, on the charge of having violated the Constitution—of having committed divers acts subversive of order and justice. The President of the Great Republic is on his trial! Is that all? What cares the world for the tipsy tailor of Nashville? He is but one amongst the forty millions who make up his country; and he owes his present dizzy position more to the assassin than to his own talents. Far be it from us to disparage either the man or his undoubted talents. Nay, it is all the more creditable that he has risen from the tailor's board to the Presidential Chair of one of the first nations of Christendom. We admire the man, recognize his pluck, and, for the most part, coincide with his policy. Yet, it must be admitted that if nothing beyond the mere fate of the individual were involved, the present culmination would evoke less interest. The bloody crime which lifted him from the tailor's board to be the ruler of a great nation sent a thrill of horror through the civilized world. The act which would send him back to his ancient "board"—exchange the sceptre of authority for the "goose" of his craft, would produce little sensation beyond the political circles of his own country. But it is not the mere fate of Andrew Johnson that is rivetting the eyes of the world upon Washington. Republicanism is on its trial! No wonder that onlooking humanity listens with breathless eagerness for the verdict. The marvellous progress of the United States had wellnigh persuaded men that Republicanism was the form of Government best adapted to the wants of enlightened man. We confess that our faith in the system, never very strong, has been on the wane of late. If we look to the southern portion of this great continent we find that the smaller Republics are, as a rule, simply not governed at all. They are not monarchised but anarchised by a sort of perstrephic brigandism, wherein the people, if thieves and assassins can go by that name, follow the mere fortunes of the miscreant who can murder his way up to the captain of the gang. That the great and powerful and prosperous Republic with which we have more immediately to deal has presented in many respects a happy contrast may be, perhaps, chiefly attributed to the Anglo-Saxon stock from which it sprang. Has the breed run out? Has the stock degenerated on American soil? "The most free and enlightened Government in all creation," whither doth it now tend? Is it not a significant phenomenon not only that Monarchies are far the most ancient, permanent and consolidated of communities, but that all democracies have an irrisistible tendency to return to the the Kingly form of Government? Republics have been tried often enough, but they have generally culminated in a Sovereign. Even in the United States the President is a nearly irresponsible despot for the four years of his reign. Abraham Lincoln, indeed, was neither more nor less than a self-confessed usurper and an actual dictator. Was not his proclamation of emancipation an act of pure revolutionary despotism? The only Commonwealth that has even the semblance of stability is that which has only ended a struggle for precarious existence by a military despotism, and which is at this moment impeaching its Chief Magistrate, forcibly to call another to his place! Every four years the Republic is convulsed from end to end with the heart-burning animosities of rival factions, struggling for a precarious supremacy. Jealousy, suspicion, insecurity of institutions, scarcely bearable in a Federation of States of independent freeholders, endowed with boundless territory, a teeming soil, and a productive climate, would be utterly insupportable in a thickly-peopled and old-settled country. Even an elective Monarchy has yielded its miserable fruits in Poland—and of old in Germany. All wise statesmen discover the danger of making the chief officer of the state the subject of faction and intrigue—the necessity of controlling the absolutism of a tyrant majority by a moderator to whom the weak can fly, and who will raise the authority of the laws above the partiality and injustice of party triumph. Look at the United States. No sooner has one man been pitchforked into the Presidential Chair than the whole nation sets itself at work to prepare for the next election. Master and man, soldier and parson—on they go with an untold ramification of wire-pulling and demoralizing corruption; and who does not aspire to become the chief magistrate of his country? It is even doubtful whether the prodigious waste of time and money exhausted by a whole nation in preparations for the periodical struggle for Presidential ascendancy, does not amount to a greater money cost than the endowment and revenue of an hereditary Monarchy. Look, too, at the pitiable spectacle presented by one who should be the first lady in America—one who presided at the "White House," and who, while she distributed, with a woman's whims, the enormous patronage of the state with one hand, openly received Tribes with the other! Are these spectacles calculated to beget feelings of self-respect and national pride? Are they not rather calculated to inspire feelings of thankfulness for a system of Government which has approved itself the most stable and beneficent of all human systems—the limited Monarchy of Great Britain. We are not of those who would rejoice to see the Great Republic "smash up". On the contrary, we have always viewed the United States as a most potent agency in advancing liberalism and liberty the world over. Even our own nation has been greatly benefitted in this respect. We believe the Government and institutions of the mother country would be less liberal than they are to-day were it not for the influence of America. Nor do we believe that the British American Colonies would have obtained full self-government so soon were it not for the same reason. But, as we have already said, a comparing of notes leads us to believe that the British Monarchy has fully demonstrated its superiority over Republicanism in many essential qualities; and, without indulging in any speculative prediction as to the final issue, we view with feelings of pride and satisfaction the consolidation of the British North American Possessions and the establishment of a British nation alongside of the American giant. We have nothing to lose by the contrast, and, if we are not greatly mistaken, many years will not elapse before our Republican neighbours will long for a stable and strong Government, such as we shall have succeeded in establishing under their very nose.

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed diseases."
Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order."
The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than by delige and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
Rev. W. H. Woodbyre, Madrid, N. Y."

"* * * Then will send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, Asa Curtis, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me."
Rev. J. E. Pathors, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. Andrews,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.
The public may rest assured that in no case will the perfectly pure standard of the Plantation Bitters be departed from.
Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.
Any person pretending to sell Plantation Bitters *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* Unmutilated *over every cork.*
Sold by all Druggists, Grocers and Dealers throughout the world.

Redington & Co., 416 and 418 Front St. San Francisco,
Agents for California and Nevada.

FLEAS.

Lyon's Magnetic Insect Powder is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or taken with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.
Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.
The genuine has the signature of E. Lyon, and the private stamp of Demas Barnes & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.
Sold by all druggists and dealers on Pacific Coast,

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.
No compound has ever been invented so useful and efficacious in curing

Rheumatism, Stiff & Weak Joints, Bruises, Sprains, Sore Throat, Burns, Ear Ache, Fresh Cuts or Wounds, Swellings,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.
It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.
All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the Private U. S. Stamp of Demas Barner & Co. over the top.
An effort has been made to counterfeit it with a cheap stone plate label. Look closely!
Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

WHAT SHALL WE DO WITH IT?

Another Legislative Session is upon us. What shall we do with it? Possibly it doth concern us most to know what it will do with us! The Governor has summoned his "faithful Commons" in no stereotyped language of dry formality. "As matters of grave importance", says the summons, "will be brought before the Legislative Council during the ensuing Session, His Excellency hopes that you will not fail to be in your place during the Session, as it is most desirable that such matters should be dealt with by a full Council." What do these words portend? Connecting them with the mysterious despatches, so carefully transmitted through naval channels, one would almost be induced to believe that some important national or international question is about to be placed before the House. Without attempting to dive into His Excellency's despatch bag, or without indulging in unprofitable speculation, we may be permitted to indicate the rough outline of some of the things which the Legislature *ought* to do *for* us. The Session is called at a very late period. Communication with the interior will, in all probability be renewed in two or, at the most, three weeks; and the opening of traffic ought to be the signal for the Magistrates to repair to their various stations. There is great probability, therefore, that the approaching Session will be of very short duration. But, be it long or short, there are several subjects which would appear to demand attention. Among the first of these may perhaps be mentioned that of Education. The unsuitableness to the wants and circumstances of the Colony of the system tried on Vancouver Island has, we presume, been amply demonstrated. The Mainland has no system—has never had one. What would appear to be best suited to the present need of the United Colony is a simple system of unsectarian education, based upon the principle of helping those who help themselves—a principle always recognized by the best national system with which we are acquainted—that of Canada. It would be difficult to lay down an arbitrary rule, applicable alike to all parts of a new country exhibiting such a diversity of conditions; but we may say in a general way, that we think one moiety of the support should be drawn from the Colonial Treasury, leaving the other moiety to be raised by local tax or rate. Upon one point there can be no doubt: It would be neither creditable nor right to leave Educational matters any longer in the present extremely inefficient and unsatisfactory condition. The tenure by which the silver and copper and coal mines of the Colony are hermetically sealed must be changed, and the shackles knocked from the tender limbs of these young interests. The way to the development of these great veins of wealth must no longer be through the Circumlocution-Office. "It was all over with the old delightful days of Rockville. There was an end of picnicing of fishing, of roving on the islands. One sturdy disciple of Isaac Walton, indeed, dared to fling a line from the banks of Rockville Grove, but Sir Roger himself came upon him, and endeavored to seize him. The man coolly walked into the middle of the river, and without a word continued fishing. 'Get out there!' exclaimed Sir Roger; 'that is still my property.' The man waded through the river to the other bank, where he knew that the land was rented to a farmer. 'Give over!' shouted Sir Roger; 'I tell you the water is mine.' 'Then, said the fellow, bottle it up, and be hanged to you! Don't you see it is all running away to Castleborough?'" The application is obvious enough. Some sort of a fence-law is much needed. The law of England, providing for fencing in stock instead of crops, is held by our Jurists to be in force here. If they are correct (which we doubt!) then all the more is legislation demanded; for such a law is obviously unsuited to the circumstances and wants of British Columbia. The tangled skein of two unassimilated judiciaries will have to be unravelled and harmonized, a work which should never have been allowed to pass last Session. Last, though by no means least, the question of the early admission of this Colony into the Confederation will, we are led to believe, claim the earnest attention of the Council. Most agreeably are we surprised to learn that the new Dominion is even now eagerly stretching out its arms to receive us, and that upon terms which we are asked to believe are most liberal. The Canadian Parliament reassembled at 1 o'clock on Thursday last; and amongst the first matters that were to have been submitted to the Commons, was a Government measure for the immediate admission of this Colony! If these things be so, we must be "up and doing," or there is a possibility of our being "done for." If we do not dictate our own terms we may be treated like minors, and have to accept such terms as others may dictate for us! Is it possible that this forms one of the "matters of grave importance" to which allusion is made in the summons to attend the House? The programme we have thus imperfectly indicated, embraces but few items; yet it may involve considerations of the most "grave importance," leaving entirely out of the calculation the hidden matters of the mysterious despatch-bag.

TELEGRAPHIC SUMMARY.

EASTERN STATES.

(DATES TO 7TH MARCH.)

On the 5th the President *pro tem.* said all Legislative and Executive business of the Senate was ordered to cease, for the purpose of proceeding with business connected with the impeachment. Thereupon he vacated the Chair, and the Chief Justice then advanced up the aisle clad in his official robes, accompanied by Justice Nelson and escorted by the Committee appointed for that purpose, followed by the managers of the House, who stood behind the bar. The Chief Justice ascended the President's Chair, and said in a solemn and impressive voice—Senators, in obedience to your notice, I have appeared to join with you in forming a Court of Impeachment for the trial of the President of the United States. I am ready to take the Oath. Judge Nelson then administered the following oath:—I do solemnly swear that in all things pertaining to the trial of the impeachment of Andrew Johnson, President of the United States. I will do impartial justice according to the constitution and laws, so help me God. The Secretary then called the roll, each Senator advancing and taking the oath prescribed by the rules. The question whether Wade, being the person who would succeed the President, could take part in the trial was debated until adjournment. On the 7th Mr. Howard moved that the Secretary of the Senate inform the House of the organization of the Court, which was done, and the managers soon appeared before the bar of the Senate and asked, through Mr. Bingham, their Chairman, that Andrew Johnson be summoned to appear before the bar of the Senate to answer the articles. On motion of Mr. Howard the summons was issued returnable on Friday, March 13th. The summons will be served by the sergeant-at-arms of the Senate. It is signed by the Chief Justice, and the sergeant-at arms is requested to serve it in four days before it is made returnable. It is endorsed on the back in a manner similar to writs and summons used in ordinary courts. The President will respond in person and then await the action of the Senate, in his defence filing a demurrer, when dismissal of the complaint and quashing of the articles will be demanded. The Baltimore Republican State Convention favors Grant for President and Creswell for Vice-President.

JAPAN.

—Despatches from China and Japan were received at London via India on the 5th March. The civil war in Japan raged with great violence. Several combats had taken place between the Tycoon and the Daimos, which were attended with heavy loss of life. Great excesses were being committed on both sides. In consequence of the insecure condition of the country the Ministers of Foreign Powers had all left Osaka.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by Dr. J. C. AYER & Co., *Practical and Analytical Chemists*, Lowell, Mass.

Sold by all druggists every where.

MOODIE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and Dr. JONES, New Westminster, and by every dealer in the Colony.

NEW BOOT AND SHOE STORE.

J. WHITFIELD, the old Cariboo Pioneer, wishes to inform the public of New Westminster and vicinity, that he has purchased the Stock in Trade of the late W. Woodman, of Columbia street, New Westminster, where he will carry on the Boot and Shoe business in all its branches.

He also wishes to inform his friends in Cariboo that all orders from them will be punctually attended to and forwarded through Barnard's Express.

Particular attention will be paid to Job work.

Gum Boots, if repaired by him, will be guaranteed waterproof.

POSTAL MATTERS.

Having had occasion to complain a good deal about the inefficiency of the mail service between the seaboard and Cariboo, during the past winter, it affords us peculiar gratification to learn that the Government has given a three years' contract for the interior mail service to Mr. Barnard. Our friends throughout the Colony will require no better guarantee for the faithful and efficient performance than the antecedents of the enterprising and energetic contractor afford. This is, we believe, the first time that the contract has been given out for a longer term than one year; and it will hardly be necessary for us to stop in order to point out the obvious objections to the short term. We are not aware of the price at which the three years' service has been undertaken, and, consequently, cannot indicate the precise amount that has been saved by adopting the longer term; yet we feel assured that the saving ought to be considerable, for it is not difficult to understand how a contractor, with three years' work before him, instead of one, can shape his plans so as to conduct the enterprise to much greater advantage, and at less expense, besides avoiding all the annoyance and uncertainty of being placed in competition every year, it may be with irresponsible parties, who, having nothing to lose, might tender at a price for which the service could not be efficiently performed. Besides a saving in money, the public avoid a repetition of the spectacle we had to witness within the past few months, of seeing the country left for weeks between the expiry of the old contract, and the giving out of the new, destitute of any mail service at all. The service called for by the new contract is, we understand, weekly mails to Cariboo during the eight months of Summer, and bi-monthly during the four Winter months. This is as much as could reasonably be expected at present, and we congratulate the Colony upon having secured so liberal and efficient a mail service for three years to come. The contractor has now on the way from California an addition to his already by no means inconsiderable stud of no less than three hundred fresh horses, and we believe he is sanguine enough to reckon upon these horses as forming the nucleus of the overland mail and stage coach line to Canada! Such energy and ambition deserve to be crowned with success; and we have no doubt that Mr. Barnard will have the honor of carrying the first mail across the continent.

APPOINTMENTS, RUMORED AND REAL.

The air has been thick with rumors, during the past few days, about official changes, appointments and resignations, one-half of which we should be sorry to believe. We have already stated that Mr. Ker, the efficient Auditor-General, has been appointed to sit in the Legislative Council, and we presume in the Executive Council as well, as Acting Treasurer. The Hon. H. M. Ball has been called to the Executive Council. He is a good officer, of long experience, and should be able to give His Excellency much useful advice. And here stops certainty. Now for rumor. It is stated that Mr. Charles Good, an old and most efficient public officer, and, for the last ten or eleven months, filling the position of Assistant Colonial Secretary, has also been called to take a seat in the Legislative Council. If this be true it constitutes wise step number two; for all who know Mr. Good, and his thorough familiarity with the affairs of the Colony, must admit that he would make a most useful working member. It is also said that Mr. Bushby, the popular Registrar-General and Acting Postmaster-General, has been called to take a seat in the Legislative Council. He, also, would prove a valuable addition. There are other rumored appointments which we would, for various reasons, prefer to say nothing about for the present. A rumor has reached us to the effect that the Hon. Mr. Brew, present Gold Commissioner at Cariboo, has resigned his position in the Government! We sincerely trust this rumor may turn out to be without any foundation in fact. Mr. Brew has been in the Magistracy ever since 1858; during most of that period he has resided here, and, whether as Magistrate or County Court Judge, he has proved himself to be an honorable, upright and intelligent public officer, and has succeeded in securing and retaining to an unusual extent the good opinion of those with whom he has come into contact. It is said that ill-health and the unsuitableness of the climate of Cariboo to his constitution form the grounds of resignation; but surely so old and faithful an officer would be entitled to rather greater consideration at the hands of the Governor than such a reason would imply. It is presumable that to-day's *Gazette* will shed a ray of light upon some of the rumors to which we have thus cursorily alluded; so that it is needless to spend more time in what is really no better than idle speculation.

Since the above was in type we learn that Mr. Brew has resigned his seat in the Legislative Council only.

BRIGHTON ROAD.—The winter is over. Jack Frost has withdrawn his support, and the traffic between this city and the Inlet has returned like a sow, to wallowing in the mire. Surely another season's traffic is not to be sacrificed by leaving the Brighton Road any longer in its present most disreputable condition. We have several times suggested what we consider the best policy to adopt with regard to that road: Place it in a fair condition by the timely and judicious expenditure of two or three thousand dollars, and give the contract of keeping it in repair to some reliable person, at the rate of say $500 or $600 a year. Such a plan would, we feel confident, prove the cheapest and most efficient; and unless the authorities can devise some better mode, we consider it their bounden duty to adopt it. Assuredly the Government would not be justified in allowing the important interests involved in this matter to be much longer sacrificed in the way they have been for some months back.

HAY WANTED.—We understand the lumber interests at Burrard Inlet are suffering from there not being anything like a supply of hay in the country. It will be recollected that during last Session the protective duty of $4 a ton was placed upon the article, with a view to stimulating its growth. In the course of the debates we were led to believe that there were parties in the business, on Vancouver Island prepared to produce all the hay that was required. Where are they now? If, after another season's trial, it is found that a supply of colonial hay cannot be got, it may be necessary to admit the article from abroad on more liberal terms; but surely we have ground enough and farmers enough to supply the demand!

BOUND TO GO!—Capt. Irving, with his usual pluck, appears determined to run the ice-blockade and reach Yale next week! It is his intention to sail the day after the arrival of the steamer from below, taking on board a supply of blasting materials and appliances for the purpose of forcing a channel, if necessary. We wish him that success which his enterprise and courage merit.

THE MAIL STEAMER California, is expected to arrive at Victoria to-morrow, so that we shall probably have the Enterprise up on Monday or, at the farthest, Tuesday. Should the California extend her trip to Sitka, as was intended, our outward mail will not be made up for about a week.

THE WEATHER underwent a disagreeable change yesterday. After several weeks of delightful weather, yesterday opened with a cold wind and drizzling rain, which turned to snow towards evening, rendering things intensely disagreeable.

REMEMBER the adjourned Library meeting at 8 o'clock this evening.

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

ROYAL ASSENT has been given to the following Ordinances, passed during last Session of the Legislative Council:—

"No. 25. An Ordinance to assimilate the Law regulating the Postal Service."

"No. 28. An Ordinance to assimilate and amend the Law prohibiting the sale or gift of Intoxicating Liquor to Indians."

"No. 30. An Ordinance to assimilate the Laws for the Regulation of Pilotage in all parts of the Colony of British Columbia."

NEW CUT.—In another column will be found a communication advocating in a very businesslike way, the claims of a new cut *via* Williams Lake. The project is by no means new, and it is, from all we can learn, of sufficient importance to demand the immediate attention of the Government.

FROM CARIBOO.—The news received by the mail which arrived from Cariboo on Tuesday night is little more than confirmatory of what has already been published in this journal. A still richer lead is reported to have been struck in the [illegible] claim.

A NEW ROAD WANTED.

To the Editor of the British Columbian.

SIR,—Will you allow me space for a few remarks on the subject of a Branch Waggon Road through the valley of Williams Lake. Such was in contemplation last Fall and Mr. Spence made a partial survey of a practicable route, but I do not know whether any steps are in progress for carrying through the road. Since it was decided (contrary, I believe to Government instructions) in 1862, to take the road by Deep Creek, and the subsequent removal of Government Head-quarters from Williams Lake, that place has become very little noticed in any public communication, and probably Deep Creek is familiar to many mouths while Mission Ranche or Pinchbeck's Farm and Distillery are scarcely known. What I now propose is to lay a kind of table before your readers, shewing the difference between the respective pieces of road, *i. e.* the present road by Deep Creek and the contemplated one by Williams Lake.

To commence with that by the present Waggon Road past Deep Creek, the Ranches are:

Brigg's. Wild hay and turnips. Abandoned.

Deep Creek. Oats (in good seasons) turnips and cabbages. 300 acres put under cultivation formerly, only a small portion now put in crop.

Kincade, Pack & Co. Abandoned.

Now please notice the difference through a rather less number of miles by Williams Lake:

Mason's. Just commenced.

Bate's. 80 acres. Wheat, barley, potatoes, &c., &c.

C. Luton's. Just commenced.

T. Meldrum's. 60 acres. Wheat, barley, potatoes, &c.

Wm. Pinchbeck. 75 acres. Wheat, barley, &c., and distillery.

T. Menefie. Mission Ranch. 200 acres wheat, barley, potatoes, &c.

Colbraith & Co. 150 acres. Wheat, barley, potatoes, &c.

Thus you see ranches are commencing in the Williams Lake Valley while they are abandoned on the waggon road. All these are actually on the proposed branch and would, if certified that such branch would be made, double their wheat raising during the coming season. A Grist Mill is in course of erection at the foot of the Lake, and the following ranches in the immediate vicinity could then send their flour direct from the mill to the upper country at a lower charge than at present:

CHIMNEY CREEK; Senadi, 110 acres.
" J. Rose, 50 "
AEKALI LAKE; W. Boxes, 70 "
" Phillipine & Co. 60 "
CHILCOTIN FLAT; Chinamen 75 "

(All these raise wheat, barley, beans and almost all vegetables.)

The ranches lower down the Canoe Creek Trail which get their flour ground at the Dog Creek Mill would also reap advantage by the change. But, perhaps, the most important point is the almost impracticable state of the present road during the season of greatest traffic. Last summer it could scarcely bear the different transports at all; animals miring in a manner which reminded one more of the roads above Quesnel during the summer of 1862 than of a waggon road of several years' standing, while the proposed road is on a dry, firm side the whole way. Thus the whole community would benefit by the alteration.

VIA MARIS.

"WIDELY KNOWN."—It is generally supposed that the Websters, Palmerstons, Gortaschoffs, Metternichs, and Garibaldis of politics are the men of world-wide renown, and so they are where newspapers circulate, not much beyond. One of our friends lately returned from China, amuses us with the recital of his journey inland for some distance, where the enquiry oftenest made when he became known as an American, was whether he knew or had ever seen the great chemist of his country, Dr. Ayer, who made the medicines. They use his remedies—many of them have been cured by them and they speak of him as if he occupied the whole of America were at least the great feature of it. A mandarin who had been cured of a malignant ulcer on the hip by his Sarsaparilla, seemed to consider it our principal article of export, and its inventor one of the few men this continent has produced worthy the attention of Chinamen.

SOMETHING NEW.—The well known Publishing House of Harper & Bros. New York have commenced publishing a Weekly Paper of FASHIONS called *Harper's Bazaar*. It is the best thing in the Fashion line yet issued. Each number contains six pages of Plates, besides a sheet of Patterns and ten pages of reading matter. The first four numbers can be seen at G. C Clarkson & Co.'s Bookstore, where subscriptions are solicited. Price per year $7.00, per half-year, $4.00, to up country subscribers $8.50 per year and $4.50 per half-year, postage paid. *

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure, ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c,

CASCARILLA BARK.—For Diarrhea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

Another wonderful ingredient of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all side, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and imposter. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York,
Sole Proprietors.

Redington & Co., San Francisco. Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. W. HEWITT, Foreman for Amer'n, Wells, Fargo's & Harpden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." ED. SELLY.

Gloucester, Mass., Aug. 1, 1865.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores, @ 25 & 50cts. and $1.

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROME, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel,
S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all deprived humours, and effecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, proving it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous ingbient have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart, Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's marvailed, Ointment and Pills the dropsical patient will very find succour; the present relief derived from these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts, twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advise will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes	Fistulas,	Scurvy,
and Sand-flies,	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,	Ulcers,	
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Oxford, Maine,

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Neshua, N. H.

"I had for several years a very troublesome *humor* in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Swain, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Siebler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as my other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati,

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

MOORE & Co., Agents, Victoria, V. I. Sold by H. W. SMITH and DR. JONES, New Westminster, and by every dealer in the Colony.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., as is attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the regions of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day, and the Pills taken in unison, will cure any complaints arising from these organs.

Piles,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints Incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil.
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloureaux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds.
Dropsy,	Lumbago,	Weakness from whatever cause, &c., &c.
Dysentery,	Piles,	
Erysipelas,	Rheumatism,	
	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s., each Box.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
